ROLE: Facilitator/Moderator (
BRIEF
Situation of Mental Illness in India
As per data available for prevalence of mental illness in India in the year 2005:
6-7% people suffer from mental disorders
1-2% suffer from severe mental disorders like schizophrenia and bipolar disorder
5% suffer from common mental disorders like depression and anxiety
Real numbers, however, could be higher than this as many such cases go unregistered.
Mental Health Bill
Passed in 2013 by Rajya Sabha, Mental Health Bill seeks to replace the Mental Health Act, 1987
