

Student feedback for M.Sc. course

Feedback from students of the M.Sc. course was taken for one of the papers (Gene Expression in Prokaryotes) for the academic years 2015-16 and 2016-17.

The feedback was taken in the form of blind responses to statements regarding the Paper by encircling five options in the scale of 1 to 5 (1-strongly disagree, 5 strongly agree)

The statements and the average responses are shown below (class size 10-12 students for each year)

The Paper repeated what was taught at the B.Sc. level. Response: 2

Some of the topics were also taught in other Papers. Response: 1

The Paper taught me how to analyze experimental data. Response: 5

The Paper has prepared me better for a possible career in scientific research. Response: 5

The classes were long and tiring. Response: 2

Internal assessment helped to sharpen my presentation skills. Response: 5
