**Proposed theme and scope of research for M.Phil./Ph.D.**

The proposed objective is to formulate optimal and efficient mixture experiments. Besides having a direct application in product formulation, they are often employed in process engineering and development.

**Major writings in the field in which you would like to pursue your M.Phil./Ph.D.**

H. Scheffe, G. F. Piepel, J. A. Cornell and R. D. Snee are the major contributors in the field of mixture experimentation. One of the best readings in this field is due to J. A. Cornell (2002) "Experiments with Mixtures: Designs, Models, and Analysis of Mixture Data", 3rd edition, John Wiley and Sons, Inc., New York.

The research papers by Scheffe H. (1958) "Experiments with Mixtures", Journal of the Royal Statistical Society, Series B (Methodological), Vol. 20, No. 2, pp. 344-360 and (1963) "The Simplex-Centroid Design for Experiments with Mixtures", Journal of the Royal Statistical Society, Series B (Methodological), Vol. 25, No. 2, pp. 235-263 serve as benchmarks in the literature.

Cain M. and Price M. L. R. (1986) "Optimal Mixture Designs", Applied Statistics, 35, pp. 1-7 discusses optimal designs in mixture experiments.

**Primary sources/field work, methodology, hypothesis/research, questions and issues in the proposed field of interest.**

"Not Applicable"

**Past Research Experience, Publications**

I have gained some research experience during my M. Phil (2012-2015)

**Additional Information**

I have served as an ad-hoc faculty in University of Delhi from 24th July, 2013 till 20th May, 2016, thus rendering me a teaching experience of 2 years 10 months.

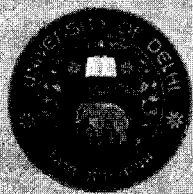

**Uploaded Files**

1. Photo                      2. Signature                      3. ID Proof                      4. D.O.B. Certificate

**Declaration**

I have checked all the entries made by me in the form. Any wrong information given by me will lead to cancellation of my admission and also penal action against me.
