2017	20-23.06.2017	p.17-18 The Council considered and accepted the following recommendations of the Faculty of Arts made at its meeting held on 17.06.2017, and recommended to the Executive Council for approval: 16.1/ Change of nomenclature in Core Course C4 in Semester 2 of B.A. (Hons.) French, B.A. (Hons.) German, B.A. (Hons.) Italian and B.A. (Hons.) Spanish. This is being proposed to correct an error in the existing nomenclature. Course name currently: Intermediate level reading and writing skills-1 Proposed change: Developing, listening and speaking skills - 2 16.2/ Generic Elective (GE) courses in French/ German/Italian/ Spanish/Portuguese. a) At present only 2 courses are offered in each of these languages. This restricts the options for students of Honours programmes wishing to choose all four GE courses in any of these languages. Therefore, the existing courses have been revised and two more courses have been added for each language. These courses can be offered to students of BA (Hons), BSc (Hons) and B.Com (Hons) (as GE courses in Semesters 1, 2, 3 and 4). They can also be offered to students of BA, BSc and B.Com as GE courses in Semesters 5 and 6. As these are language courses that are taught in progression, students would have to opt them in sequential order, unless they have completed equivalent courses at any other institution up to the level required for the concerned course. Introduction to French/German/Italian/Portuguese/Spanish-1(Appendix-29(A)). Introduction to French/German/Italian/Portuguese/Spanish-2(Appendix-29(B)). Intermediate French/German/Italian/Portuguese/Spanish-1(Appendix-29(C)). Intermediate French/German/Italian/Portuguese/Spanish-2(Appendix-29(D)). b) Two other GE courses have been proposed for undergraduate students who may want to learn any of these languages for the specific purpose of Tourism and Business. These two courses are also developed in progression as incremental language learning and have to be opted in sequential order, unless they have completed equivalent courses at any other institution up to the level required for the concerned course. French/German/Italian/Portuguese/Spanish for Tourism and Business-1 (Appendix-29(E)). French/German/Italian/Portuguese/Spanish for Tourism and Business-2 (Appendix-29(F)).

3/ This Academic Council of the University of Delhi expresses the highest regard for the University Grants Commission and after a great deal of deliberation resolves to bring to the attention and notice of the UGC certain facts that will throw light on the matters raised in the UGC order dated 20 June 2014 addressed to the University of Delhi.

The Academic Council believes that in view of the modifications and clarifications, the undergraduate programme as resolved and presented below is in compliance with the National Policy on Education (10+2+3) and with the concern's of the UGC.

- The Academic Council notes that students seeking admission this year, that is, 2014-15 will be admitted into a three years Bachelor's degree programme (BA/BSc/BCom) in their Discipline I (Major subject) and will graduate with the corresponding degree on the completion of three years. The Academic Council reiterates that the undergraduate programme with multiple degree options allows each student to gain a B.A./B.Sc./B.Com Degree after completing three years. It resolves to award this B.A. / B.Sc./B.Com degree with mention (as allowed under UGC regulations) of the subject in which the student has majored.
- Thus the Academic Council urges the UGC to view this programme as being in conformity with the National Policy on Education. The Academic Council also wishes to draw the attention of the UGC to the fact that a large number of educational institutions in the country including some directly under the Central Government have been offering a Bachelors programme of a four year duration for several years.
- The Academic Council further clarifies that the fourth year of study is an optional year for those students who wish to obtain a BA Honours /BSc Honours /BCom Honours/BTech UG degree. Furthermore, students who graduate in Discipline 1 will in addition also be eligible for enrollment at the PG level based on their Discipline 2 option (Minor).
- The University has also resolved to devise ways and means in the shortest time possible for creating a credit mechanism that will ensure that an Honours degree holder of the University of Delhi shall be able to obtain a Masters degree at the University of Delhi within the total span of five years after senior secondary as has happened in the past.
- The students who were admitted last year, that is, in 2013-14 to the undergraduate degree programme in the various constituent colleges of the University are already pursuing a course of study towards a BA/BSc/BCom degree in their respective Discipline I (major). No change is required in the course structure to enable them to graduate in three years from their date of admission i.e. in 2016.

- The Academic Council also wishes to bring to the notice of the UGC that the admission process has witnessed extra ordinarily large number of students who have already submitted their applications and assuming that the same number shall be essentially seeking admissions to any other scheme if so decided at any stage, the logistics involved are enormous and will consume a huge amount of time since revised courses of study will have to be approved through a proper process starting from seeking approval of various statutory bodies at the most basic level all the way up to the Academic Council, the Executive Council and the University Court. Thus the academic session will be delayed considerably in terms of the time involved.

- Note: i) The Standing Committee of Science Departments at its meeting held on 18.01.2013 opined that amount of Meritorious Award i.e. ₹ 3,00,000/- (₹ Three Lakh only) is a very small amount and as such recommended that the amount may be enhanced from ₹ 3,00,000/- to ₹ 12,00,000/-.

Academic Subjects and Procedure for Calculating Best of Four Percentage (For courses wherein admission is done on the basis of Best of Four)

- I. The following Discipline I subjects offered by the University of Delhi for admission to undergraduate courses must be treated as Academic/Elective subjects for the purpose of admission. All other subjects offered by different boards may be treated as non-elective. All the Discipline I subjects must have at least a 70% component of theory exams (theory exam does not include internal assessment/continuous evaluation etc.) in the qualifying exam for the purpose of being treated as academic/elective subject.

Physics	Chemistry	Botany	Geology
Zoology	Anthropology	Microbiology	Biochemistry
Biomedical Sciences	Mathematics	Statistics	Computer Science
Instrumentation	Food Technology	Psychology	Electronics
English	Hindi	Sanskrit	Arabic
Bengali	Urdu	Persian	Commerce*
Economics	Political Science	History	Geography

Philosophy	Home Science [#]	Physical Education [#]	Sociology
Polymer Science	Music [#]	Punjabi	Social work
French	German	Italian	Spanish

- II. *Accountancy will be treated as equivalent to Commerce wherever any board is not offering commerce as a subject.
- III. Biology and Business studies will be treated as academic/elective subjects. University may define any other relevant subjects as academic/elective for a particular Honours course.
- IV. [#]Home Science, Music, and Physical Education will be treated as academic/elective only for Honours in Home Science, Music and Physical Education (at IGIPSS only), respectively.

V. Procedure for calculation of 'Best of Four' subjects percentage:-

- One Language (Core/Elective/Functional)
- Subject in which admission is sought (Discipline I)
- Any two other academic/elective subjects (as defined earlier)

Note:

- If a candidate has not studied the subject in which he/she is seeking admission in the Discipline I, then a disadvantage of 2% may be imposed on the calculated Best of Four percentage.
 - The colleges will have to consider only the academic/elective subject for calculation of Best of Four percentage if the candidate has studied at least four academic/elective subjects or one language and three academic/elective subjects.
 - In case a candidate has not studied three academic/elective subjects, then a disadvantage of 10% of the maximum marks may be levied on each such non-elective subject(s) to be included for the calculation of Best of Four percentage.
 - In case a candidate has studied three academic/elective subjects but wishes to include the percentage of non-elective subject(s) for the calculation of Best of Four, then a disadvantage of 10% of the maximum marks may be levied on each such non-elective subject(s) to be included for the calculation of Best of Four percentage.
 - All the academic/elective subjects should have 70% component of theory exams (theory exam does not include internal assessment/continuous evaluation etc.). Otherwise these will be treated as non-elective subject.
 - In case a candidate has studied both elective and core in any languages, then core language will be treated as language, while elective language can be considered as academic/elective subject.
- VI. For admission to Honours in any language course, advantage of 2% in the Best of Four percentage may be given to those candidates who have studied the elective language. 2% disadvantage in the Best of Four percentage may be given to those who have studied functional language only. In case, a candidate has not studied the language at qualifying exam and is seeking admission in Honours in that language, he/she may be given a disadvantage of 5% in Best of Four percentage.

However, for admission to Honours in English and Hindi, the candidate must have studied the respective language and has to be included for calculation of Best of Four percentage.

Examples for calculation of ‘Best of Four percentage’ are given below.

Example 1: If a candidate is seeking admission in Honours in Commerce and Studied: Accounts (90), Business Studies (92), English (88) and Economics (94). Then his total marks are $90+92+88+94=364$ and effective percentage is 91%	Example 2: If a candidate is seeking admission in Honours in Commerce and Studied: Physics (96), Chemistry (92), English (90) and Mathematics (94). Then his total marks are $96+92+90+94=372$ and Percentage 93%. But Effective Percentage is $93-2 = 91\%$
Example 3: If a candidate is seeking admission in Honours in Commerce and Studied: Accounts (88), Entrepreneurship (92), English(90) and Web Designing (94). Then, his total marks are $88+92+90+96=366$, Percentage is 91.5%. But Effective marks are $88+82(92-10)+90+84(94-10)=344$ and effective Percentage is 86%.	Example 4: If a candidate is seeking admission in Honours in English and Studied: Accounts (90), Business Studies (92), English (88) and Home Science (94). Then total marks are $90+92+88+94=364$, and Percentage is 91%. But effective marks are $90+92+88+84(94-10) = 354$ and effective Percentage is 88.5%.

- VII. The candidates must have studied mathematics at the qualifying exam for admission to Honours in Economics.
 - VIII. The Basis of Selection for Mathematical Sciences/Science courses remains unchanged. However the subjects to be included for Basis of Selection (PCM/PCB/PCMB) must have at least 70% component of theory exams (theory exam does not include internal assessment/continuous evaluation etc.) in the qualifying exam otherwise a disadvantage of 10% of the maximum marks may be levied on each such subject.

Undergraduate Programme Secretariat

Preamble

The University Grants Commission (UGC) has initiated several measures to bring equity, efficiency and excellence in the Higher Education System of country. The important measures taken to enhance academic standards and quality in higher education include innovation and improvements in curriculum, teaching-learning process, examination and evaluation systems, besides governance and other matters.

The UGC has formulated various regulations and guidelines from time to time to improve the higher education system and maintain minimum standards and quality across the Higher Educational Institutions (HEIs) in India. The academic reforms recommended by the UGC in the recent past have led to overall improvement in the higher education system. However, due to lot of diversity in the system of higher education, there are multiple approaches followed by universities towards examination, evaluation and grading system. While the HEIs must have the flexibility and freedom in designing the examination and evaluation methods that best fits the curriculum, syllabi and teaching-learning methods, there is a need to devise a sensible system for awarding the grades based on the performance of students. Presently the performance of the students is reported using the conventional system of marks secured in the examinations or grades or both. The conversion from marks to letter grades and the letter grades used vary widely across the HEIs in the country. This creates difficulty for the academia and the employers to understand and infer the performance of the students graduating from different universities and colleges based on grades.

The grading system is considered to be better than the conventional marks system and hence it has been followed in the top institutions in India and abroad. So it is desirable to introduce uniform grading system. This will facilitate student mobility across institutions within and across countries and also enable potential employers to assess the performance of students. To bring in the desired uniformity, in grading system and method for computing the cumulative grade point average (CGPA) based on the performance of students in the examinations, the UGC has formulated these guidelines.

CHOICE BASED CREDIT SYSTEM (CBCS):

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it is necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions within India to begin with and across countries. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations, the UGC has formulated the guidelines to be followed.

Outline of Choice Based Credit System:

1. **Core Course:** A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.
2. **Elective Course:** Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.
 - 2.1 **Discipline Specific Elective (DSE) Course:** Elective courses may be offered by the main discipline/subject of study is referred to as Discipline Specific Elective. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).
 - 2.2 **Dissertation/Project:** An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.
 - 2.3 **Generic Elective (GE) Course:** An elective course chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective.

P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.
3. **Ability Enhancement Courses (AEC)/Competency Improvement Courses/Skill Development Courses/Foundation Course:** The Ability Enhancement (AE) Courses may be of two kinds: AE Compulsory Course (AECC) and AE Elective Course (AEEC). "AECC" courses are the courses based upon the content that leads to Knowledge enhancement. They ((i) Environmental Science, (ii) English/MIL Communication) are mandatory for all disciplines. AEEC courses are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.
 - 3.1 AE Compulsory Course (AECC): Environmental Science, English Communication/MIL Communication.
 - 3.2 AE Elective Course (AEEC): These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based instruction.

Project work/Dissertation is considered as a special course involving application of knowledge in solving / analyzing /exploring a real life situation / difficult problem. A Project/Dissertation work would be of 6 credits. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

Undergraduate Programme Secretariat

Preamble

The University Grants Commission (UGC) has initiated several measures to bring equity, efficiency and excellence in the Higher Education System of country. The important measures taken to enhance academic standards and quality in higher education include innovation and improvements in curriculum, teaching-learning process, examination and evaluation systems, besides governance and other matters.

The UGC has formulated various regulations and guidelines from time to time to improve the higher education system and maintain minimum standards and quality across the Higher Educational Institutions (HEIs) in India. The academic reforms recommended by the UGC in the recent past have led to overall improvement in the higher education system. However, due to lot of diversity in the system of higher education, there are multiple approaches followed by universities towards examination, evaluation and grading system. While the HEIs must have the flexibility and freedom in designing the examination and evaluation methods that best fits the curriculum, syllabi and teaching-learning methods, there is a need to devise a sensible system for awarding the grades based on the performance of students. Presently the performance of the students is reported using the conventional system of marks secured in the examinations or grades or both. The conversion from marks to letter grades and the letter grades used vary widely across the HEIs in the country. This creates difficulty for the academia and the employers to understand and infer the performance of the students graduating from different universities and colleges based on grades.

The grading system is considered to be better than the conventional marks system and hence it has been followed in the top institutions in India and abroad. So it is desirable to introduce uniform grading system. This will facilitate student mobility across institutions within and across countries and also enable potential employers to assess the performance of students. To bring in the desired uniformity, in grading system and method for computing the cumulative grade point average (CGPA) based on the performance of students in the examinations, the UGC has formulated these guidelines.

CHOICE BASED CREDIT SYSTEM (CBCS):

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it is necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions within India to begin with and across countries. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations, the UGC has formulated the guidelines to be followed.

Outline of Choice Based Credit System:

1. **Core Course:** A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.
2. **Elective Course:** Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.
 - 2.1 **Discipline Specific Elective (DSE) Course:** Elective courses may be offered by the main discipline/subject of study is referred to as Discipline Specific Elective. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).
 - 2.2 **Dissertation/Project:** An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.
 - 2.3 **Generic Elective (GE) Course:** An elective course chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective.

P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.
3. **Ability Enhancement Courses (AEC)/Competency Improvement Courses/Skill Development Courses/Foundation Course:** The Ability Enhancement (AE) Courses may be of two kinds: AE Compulsory Course (AECC) and AE Elective Course (AEEC). "AECC" courses are the courses based upon the content that leads to Knowledge enhancement. They ((i) Environmental Science, (ii) English/MIL Communication) are mandatory for all disciplines. AEEC courses are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.
 - 3.1 AE Compulsory Course (AECC): Environmental Science, English Communication/MIL Communication.
 - 3.2 AE Elective Course (AEEC): These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based instruction.

Project work/Dissertation is considered as a special course involving application of knowledge in solving / analyzing /exploring a real life situation / difficult problem. A Project/Dissertation work would be of 6 credits. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

Undergraduate Programme Secretariat

Preamble

The University Grants Commission (UGC) has initiated several measures to bring equity, efficiency and excellence in the Higher Education System of country. The important measures taken to enhance academic standards and quality in higher education include innovation and improvements in curriculum, teaching-learning process, examination and evaluation systems, besides governance and other matters.

The UGC has formulated various regulations and guidelines from time to time to improve the higher education system and maintain minimum standards and quality across the Higher Educational Institutions (HEIs) in India. The academic reforms recommended by the UGC in the recent past have led to overall improvement in the higher education system. However, due to lot of diversity in the system of higher education, there are multiple approaches followed by universities towards examination, evaluation and grading system. While the HEIs must have the flexibility and freedom in designing the examination and evaluation methods that best fits the curriculum, syllabi and teaching-learning methods, there is a need to devise a sensible system for awarding the grades based on the performance of students. Presently the performance of the students is reported using the conventional system of marks secured in the examinations or grades or both. The conversion from marks to letter grades and the letter grades used vary widely across the HEIs in the country. This creates difficulty for the academia and the employers to understand and infer the performance of the students graduating from different universities and colleges based on grades.

The grading system is considered to be better than the conventional marks system and hence it has been followed in the top institutions in India and abroad. So it is desirable to introduce uniform grading system. This will facilitate student mobility across institutions within and across countries and also enable potential employers to assess the performance of students. To bring in the desired uniformity, in grading system and method for computing the cumulative grade point average (CGPA) based on the performance of students in the examinations, the UGC has formulated these guidelines.

CHOICE BASED CREDIT SYSTEM (CBCS):

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it is necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions within India to begin with and across countries. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations, the UGC has formulated the guidelines to be followed.

Outline of Choice Based Credit System:

1. **Core Course:** A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.
2. **Elective Course:** Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.
 - 2.1 **Discipline Specific Elective (DSE) Course:** Elective courses may be offered by the main discipline/subject of study is referred to as Discipline Specific Elective. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).
 - 2.2 **Dissertation/Project:** An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.
 - 2.3 **Generic Elective (GE) Course:** An elective course chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective.

P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.
3. **Ability Enhancement Courses (AEC)/Competency Improvement Courses/Skill Development Courses/Foundation Course:** The Ability Enhancement (AE) Courses may be of two kinds: AE Compulsory Course (AECC) and AE Elective Course (AEEC). "AECC" courses are the courses based upon the content that leads to Knowledge enhancement. They ((i) Environmental Science, (ii) English/MIL Communication) are mandatory for all disciplines. AEEC courses are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.
 - 3.1 AE Compulsory Course (AECC): Environmental Science, English Communication/MIL Communication.
 - 3.2 AE Elective Course (AEEC): These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based instruction.

Project work/Dissertation is considered as a special course involving application of knowledge in solving / analyzing /exploring a real life situation / difficult problem. A Project/Dissertation work would be of 6 credits. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

Undergraduate Programme Secretariat

Preamble

The University Grants Commission (UGC) has initiated several measures to bring equity, efficiency and excellence in the Higher Education System of country. The important measures taken to enhance academic standards and quality in higher education include innovation and improvements in curriculum, teaching-learning process, examination and evaluation systems, besides governance and other matters.

The UGC has formulated various regulations and guidelines from time to time to improve the higher education system and maintain minimum standards and quality across the Higher Educational Institutions (HEIs) in India. The academic reforms recommended by the UGC in the recent past have led to overall improvement in the higher education system. However, due to lot of diversity in the system of higher education, there are multiple approaches followed by universities towards examination, evaluation and grading system. While the HEIs must have the flexibility and freedom in designing the examination and evaluation methods that best fits the curriculum, syllabi and teaching-learning methods, there is a need to devise a sensible system for awarding the grades based on the performance of students. Presently the performance of the students is reported using the conventional system of marks secured in the examinations or grades or both. The conversion from marks to letter grades and the letter grades used vary widely across the HEIs in the country. This creates difficulty for the academia and the employers to understand and infer the performance of the students graduating from different universities and colleges based on grades.

The grading system is considered to be better than the conventional marks system and hence it has been followed in the top institutions in India and abroad. So it is desirable to introduce uniform grading system. This will facilitate student mobility across institutions within and across countries and also enable potential employers to assess the performance of students. To bring in the desired uniformity, in grading system and method for computing the cumulative grade point average (CGPA) based on the performance of students in the examinations, the UGC has formulated these guidelines.

CHOICE BASED CREDIT SYSTEM (CBCS):

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it is necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions within India to begin with and across countries. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations, the UGC has formulated the guidelines to be followed.

Outline of Choice Based Credit System:

1. **Core Course:** A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.
2. **Elective Course:** Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.
 - 2.1 **Discipline Specific Elective (DSE) Course:** Elective courses may be offered by the main discipline/subject of study is referred to as Discipline Specific Elective. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).
 - 2.2 **Dissertation/Project:** An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.
 - 2.3 **Generic Elective (GE) Course:** An elective course chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective.

P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.
3. **Ability Enhancement Courses (AEC)/Competency Improvement Courses/Skill Development Courses/Foundation Course:** The Ability Enhancement (AE) Courses may be of two kinds: AE Compulsory Course (AECC) and AE Elective Course (AEEC). "AECC" courses are the courses based upon the content that leads to Knowledge enhancement. They ((i) Environmental Science, (ii) English/MIL Communication) are mandatory for all disciplines. AEEC courses are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.
 - 3.1 AE Compulsory Course (AECC): Environmental Science, English Communication/MIL Communication.
 - 3.2 AE Elective Course (AEEC): These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based instruction.

Project work/Dissertation is considered as a special course involving application of knowledge in solving / analyzing /exploring a real life situation / difficult problem. A Project/Dissertation work would be of 6 credits. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

Four Year Undergraduate Programme in French/German/Italian/Spanish

(with multiple degree options)

AIMS AND OBJECTIVES

The 4 year Undergraduate Programme is designed to enable students to develop communication skills in the chosen language and to acquire a broad understanding of the society, history and culture within which these languages have developed and are used. Based on the conception of language as social and cultural practice, the courses integrate knowledge of social and political institutions, historical events, and literary and cultural movements into the acquisition of the four linguistic skills - reading, writing, listening and speaking. The courses are thus designed to simultaneously develop language skills and critical thinking. The Programme comprises of Discipline Course 1, Discipline Course 2 and Application Courses.

For these courses, the process of language learning has been defined in accordance with the stages identified by the Common European Framework of Reference for Languages (CEF), developed by the European Council. It provides a basis for mutual recognition of language qualifications obtained in different learning contexts, and thus facilitating educational and professional mobility for both students and teachers. These stages are indicative of the desired level to be reached by the learner at the end of each year using parameters that are internationally acceptable. Since the communicative approach will be used for the purpose of language teaching, grammatical and syntactical structures corresponding to the various stages of language acquisition will be taught and tested implicitly.

The DC 1 and AC courses have two objectives. They equip students to continue their studies in a postgraduate programme in language, literary and cultural studies but also provide them with the competences necessary to immediately enter professional life for a variety of employment opportunities (in translation, interpretation, tourism, foreign language teaching at the school and equivalent levels, publishing, the print and electronic media, and in other emerging areas in the corporate world where knowledge of a foreign language is either required or seen as an advantage).
