METHODOLOGY

- The study was carried out in Bangali colony, within Burari area of North Delhi. The trainee and his co-worker took one and half days to carry out the interview schedule with the people of the community with the help of a local women who is also a staff, a peer educator of the agency, XYZ. As the trainee and co-worker- both had to collect data on HIV-AIDS related awareness and perceptions from the same community, a common tool was developed and data was collected together. This was done to save time and more systematic.

Universe of the study

वो मजबूत हो रहा है,
मे मजबूत हो रहा है।
वो बूझता हो रहा है,
मे क्षीण हो रहा है।
वो याद रखने लगा है,
मे भूलने लगा है।
दलने लगी है शक्ति,
आत्मशक्ति बढ़ रही है।
नौकरी गूँहो, यह है भीम,
साँस इसी से चल रही है।
