Proposed theme and scope of research for M.Phil./Ph.D.

Challenges and Prospects :- A Holistic Study Of Social Work Education In Schools of North India.

Major writings in the field in which you would like to pursue your M.Phil./Ph.D.

There are several contributions from the prominent social workers as well as scholars but most of the researches that have been carried out on the pattern and quality of social work education in India were based on the top 10 schools of social work. Recent mushrooming of schools of social work is bliss as well as the threat to the social work education. This research will try to explore the untouched aspects of social work education in India and the factors why social work as a profession in India is yet questioned. Few of the major contributors to this field include authors and social workers like Brij Mohan, PD Kulkarni, M. Nanavatty.

There are no original contributions from me till now.

Primary sources/field work, methodology, hypothesis/research, questions and issues in the proposed field of interest.
